Why Choose Saint Lucia Sea Moss?

Saint Lucia Sea Moss stands apart as a premium superfood, wildcrafted in the pristine, crystal-clear Caribbean waters surrounding Saint Lucia. Our sea moss is renowned for its exceptional nutrient density, providing over 90 essential minerals and vitamins your body needs—including iodine, calcium, magnesium, potassium, and antioxidants.

Pure & Organic: Grown naturally and harvested sustainably by local farmers, Saint Lucia Sea Moss is free from chemicals, additives, and industrial pollution. Every batch is sun-dried to preserve maximum nutritional value and vibrant natural color.

Superior Taste & Texture: Enjoy a mild flavor and silky texture that blends seamlessly into smoothies, teas, soups, and even skincare. This versatility makes it perfect for daily wellness routines.

Transform your wellness journey with a trusted, pure sea moss product—direct from the volcano-fed Caribbean coastlines of Saint Lucia. Experience the difference in quality, taste, and results!

Sustainable & Ethical: Selecting Saint Lucia Sea Moss supports eco-friendly practices and ethical harvesting that help protect marine biodiversity and the livelihoods of local farmers.

Health Benefits of Sea Moss

- Supports Thyroid Health: Sea moss is naturally rich in iodine, which is essential for healthy thyroid hormone production and metabolic regulation. Adequate iodine intake supports thyroid function, especially for those with iodine deficiency, but excessive iodine can be harmful. Always consult your healthcare provider before supplementing with sea moss, especially if you have thyroid concerns or take thyroid medications.
- Boost Immune System: Sea moss contains vitamins, minerals, and antioxidants that may help strengthen immune defenses. Animal and laboratory studies suggest potential immunomodulatory and anti-inflammatory effects, but more human research is needed to confirm these benefits.
- Aids in Weight Management: Sea moss fiber may increase satiety and help curb appetite, making it a potential aid in weight management. Emerging research suggests seaweed compounds may inhibit fat absorption and improve lipid profiles, though further studies in humans are needed.

PRODUCT CATALOGUE 2025

Saint Lucia Sea Moss is a natural, plant-based superfood with a broad spectrum of benefits—making it an excellent addition to balanced diets and active lifestyles.

- Enhance Skin Health: Sea moss provides minerals (sulfur, magnesium) and vitamins (A, E) that support skin hydration and collagen production.
- Support Mood and Overall Wellness: Sea moss provides trace minerals and nutrients (such as B vitamins and magnesium) that may help support energy levels and mood.

Note: Although sea moss is highly nutritious, many of its claimed health effects are based on early research, animal studies, or indirect evidence from other seaweeds. More large-scale human trials are needed to fully substantiate these benefits. Sea moss may absorb heavy metals and excessive iodine; use in moderation, and consult your healthcare provider if you have any health concerns or are pregnant/breastfeeding

Amazona Gold Sea Moss

The Ocean's Daily Multivitamin.

Premium Saint Lucia Gold Sea Moss

Our premium variety wildcrafted from the pristine Caribbean waters of Saint Lucia. This exceptional sea moss contains over 92 essential minerals and nutrients, making it one of the most nutrient-dense superfoods available. Perfect for daily wellness routines, Gold Sea Moss offers incredible versatility and remarkable health benefits.

Sustainably Harvested & Ethically Sourced

Our Gold Sea Moss is harvested by local Saint Lucian farmers using traditional, eco-friendly methods that protect marine ecosystems and support coastal communities. Each batch is carefully selected and sun-dried to preserve maximum nutritional value and maintain its vibrant golden color.

100% Pure & Natural

Free from chemicals, additives, and industrial pollutants, our Gold Sea Moss is grown naturally and offers superior quality.

The Complete Mineral Profile

Packed with iodine for thyroid support, calcium and magnesium for bone health, potassium for cardiovascular wellness, plus vitamins A, E, and B-complex nutrients. Every serving delivers the nutritional power of the sea.

Amazona Purple Sea Moss

The Super-food from the Sea.

Premium Saint Lucia Sea Moss

Purple Moss represents the premium tier of our sea moss collection, offering enhanced nutritional density and distinctive visual appeal. This rare variety is carefully selected from the finest waters surrounding Saint Lucia and is highly sought after by wellness enthusiasts and health-conscious consumers seeking maximum nutritional benefits.

Superior Nutrient Density

Purple Moss contains over 92 essential minerals and offers enhanced antioxidant content through its rich purple pigmentation, indicating higher levels of beneficial anthocyanins and phytonutrients. This unique variety provides targeted wellness support for thyroid function, digestive health, and immune system strengthening.

Premium Health Benefits

Rich in iodine, iron, and zinc, Purple Moss delivers superior mineral density with natural anti-inflammatory compounds that may support joint health and recovery.

Crafted for Discerning Customers

Perfect for premium wellness product lines, specialty health stores, and customers who demand the highest quality. Purple Moss offers the ultimate expression of sea moss quality, sustainability, and efficacy.

Amazona Gold Sea Moss Gel

Smooth Daily Nutrition

Ready-to-Use Daily Wellness Boost

Experience the nutritional benefits of Saint Lucia Gold Sea Moss in the most convenient form. Our Gold Sea Moss Gel is meticulously crafted using only the raw, wildcrafted sea moss and pristine water, transforming it into a smooth, easily digestible gel. It's the perfect seamless addition to your active lifestyle.

Pure Power, Effortless Integration

This gel retains the full mineral profile of the Gold Sea Moss, delivering over 92 essential minerals and vital nutrients. There is no need for preparation—simply stir a spoonful into your morning smoothie, tea, juice, or yogurt. It offers a mild, almost neutral flavor, making it versatile for both consumption and even skincare applications.

Key Features of the Gel

- **Maximum Absorption:** The gel form is optimized for easy digestion and nutrient absorption.
- **Clean Label: 100% Pure & Natural,** free from chemicals, additives, and thickening agents.
- **Supports Energy & Immunity:** An ideal daily supplement for sustained energy and immune support.

Amazona Purple Sea Moss Gel

Supreme Luxury Superfood.

The Ultimate Premium Superfood Gel

For consumers seeking the highest level of nutritional potency, our Purple Sea Moss Gel stands apart. Made from the rare Purple Sea Moss variety, this gel offers enhanced antioxidant power in a luxuriously smooth, ready-to-use format. It's the ultimate expression of quality and efficacy for discerning customers.

Antioxidant-Rich and Highly Concentrated

The distinctive purple hue indicates an increased presence of beneficial anthocyanins and phytonutrients, delivering superior targeted wellness support. This variety is processed immediately to preserve its color and potency. Incorporate this gel into your routine to support digestive health, joint comfort, and the strength of your immune system.

Targeted Wellness Support

- **Enhanced Potency:** Superior mineral density rich in iodine, iron, and zinc.
- **Anti-Inflammatory Action:** Contains natural compounds that may support joint health and faster recovery.
- **Premium Appeal:** Perfect for specialty health stores and high-end wellness product lines.
